

DECCAN CONSULTING CORP.

We build solutions with myriad of technologies

### WebStore e-commerce

**WebStore®** is our own proprietary e-commerce platform. *WebStore* can be used by corporations big and small to bring their products on the web in a matter of hours. It is currently being used by many of our customers and is built on the Microsoft ASP.NET, MS SQL & WEB 2.0 platform. We expect that with the explosive growth of the internet the demand for turnkey ecommerce platforms like *WebStore* will continue to grow.

- Fully customizable, secure online storefront with robust shopping cart and product catalog
- Sell and manage thousands of products
- Retain customers and increase sales using built-in promotional tools
- No technical or graphic design skills required
- Search-engine-friendly designs
- User registration and login
- Customer purchase history
- Additional payment options with PayPal®
- Track Gift Certificates and Coupons from your store front.

Build a powerful online storefront with the appearance and functionality of a top e-commerce Web site without programming. Build with point-and-click technology - no programming or design knowledge required!

Whether you are selling one product or tens of thousands of products, *WebStore* e-commerce will meet your needs.
